EDUCATION

University Of California, Davis

Expected: May 2027

Candidate for Master's of Science in Computer Science with *Distinction*

Relevant Coursework: Computer and Information Systems, Machine learning and Discovery

SVKM's Dwarkadas J. Sanghvi College of Engineering

June, 2021- May 2025

Candidate for Bachelor of Engineering in Computer Engineering with *Distinction*

(CGPA: 9.41/10)

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Artificial Intelligence, Web Development, Software Engineering

PROFESSIONAL EXPERIENCE

KenmarkItan Solutions, Mumbai, Maharashtra | Junior Next JS Developer

August 2023 - June 2024

- Orchestrated the development of a **Next.js application** that served **5+ backend APIs**, delivered **2 new features in the first 3 months**, and **enhanced user engagement through an immersive streaming experience**.
- Created and deployed 3+ travel partner websites** using **Next.js, React, Node.js, and MongoDB**, implementing CI/CD pipelines on cloud platforms that reduced deployment time by **40%** and improved site reliability and scalability.

JPMorgan Chase & Co., Mumbai, Maharashtra | Student Trainee

April 2023 - May 2024

- Analyzed **5+ web applications** using React.js and Python, collaborating with cross-functional teams to deliver scalable solutions
- Implemented **AI/ML predictive models and automation workflows**, improving efficiency in financial services by **15%** following Agile methodologies.

ACADEMIC PROJECTS

Travel Beyond | MongoDB, Python (Django), ReactJS, Tailwind CSS, Image Recognition, NLP, Text-to-Speech

- Processed a travel planner platform** using **MongoDB, Python (Django), ReactJS, and Tailwind CSS**, enhancing trip planning efficiency for **200+ test users**.
- Integrated image recognition, NLP-based chat, and text-to-speech features**, enabling destination analysis, intuitive interactions, and improved accessibility.
- Achieved 2nd Runner-Up at Recursion 5.0 Hackathon (2024)** among **100+ competing teams**, recognized for innovation and technical execution

Prometheus – Multi-Modal AI Content Generation Platform

- Built Prometheus**, a full-stack AI platform enabling **multi-modal generation (text, code, music, image, video)** by integrating **OpenAI and LangChain APIs**, serving **100+ active users in testing**.
- Initiated a responsive UI with Next.js** and integrated modular workflows, enabling **real-time LLM-powered interactions** and reducing response latency by **25%**.
- Implemented role-based access control, usage tracking, and API orchestration**, ensuring **scalability, security, and production-readiness** for enterprise adoption

AI-based Social Media Content & Image Generator with SEO Optimization

- Designed and developed a Automated platform** for generating **SEO-optimized social media posts**, integrating **OpenAI and Stable Diffusion APIs** to auto-generate images, captions, and hashtags, boosting content creation speed by **40%**.
- Built a responsive Next.js dashboard** that enabled creators to **schedule, edit, and optimize posts across 5+ platforms**, leveraging **NLP-based keyword analysis and image relevance scoring** to improve engagement and discoverability

TECHNICAL SKILLS

- Programming Languages:** Python, JavaScript, Java, SQL, C, C++ | **Web Tech:** HTML, CSS, MERN Stack, Node.js
- Software and Methodologies:** Git, GitHub, Adobe Photoshop, Adobe Illustrator, CI/CD, SEO Optimization, Analytics Integration | **Operating Systems:** Windows, Linux
- Others:** UI/UX Design, SEO Optimization, Analytics Integration, API Integration, Express.js API Integration, Flight and Hotel Booking APIs, Weather API Database, Material UI, Bootstrap

COURSES AND CERTIFICATIONS

- AWS Educate: Machine Learning Foundations** – Amazon Web Services Jun 2025
- Google Cybersecurity Professional Certificate**- Coursera Dec,2024
- Google AI essentials**- Coursera Dec,2024

EXTRACURRICULAR ACTIVITIES

- Secured **2nd Runner's Up** Recursion 5.0 organized by RGIT created Travel Beyond a revolutionary travel planner
- Working as Placement Coordinator at DJSCE; managed placement drives and coordination activities (2024-present)
- Joined Google Cloud Arcade as Facilitator; guided more than 1000 students to complete 2000+ skill badges and completed 40 skill badges individually (2024)
